

Diving Centre Rubicón

Experience the diving adventure

In the exclusive sport harbour Marina Rubicón you find with Diving Centre Marina Rubicón one of the most modern diving schools in Spain. The professional diving base offers everything from diving for beginners, to programs for experienced divers, up to many additional offers. And the installations right by the sea propose a comfort that turns your diving excursion into a pleasure.

Right from the beginning you will get a good insight into the professional work of the Diving Centre Marina Rubicón. The modern installations next to the sea offer comfortable space for changing clothes, hot showers and the best technical equipment. Here you can prepare yourself in all tranquillity for your dive excursion and after coming back you can share your new experiences by coffee and cakes. A lot of uncomfortable things, that many divers encounter during their holidays, for example carrying the equipment over the beach or changing on the promenade, were eliminated when planning this two year old diving centre.

As comfortable as the Centre, as professional you will find the diving excursions. Next to standards as courses or excursions for experienced divers you will find special offers for technical diving, preparation for dive instructors and the very exclusive National Geographic Diver Program. Among the diving instructors of the Centre is the actual Spanish champion for submarine photography, Arturo Telle, and special courses for underwater photography complete the program.

The long experience of the whole team guarantees the best dive spots and with over 30 different spots the whole coastline of the island is covered, including also the neighbour islands Lobos und Fuerteventura. The excursions start right from the centre with one of the three full equipped boats and a special service brings you from your hotel right to the centre.

On the Internet you will find a lot of detailed information about the professional program of the Rubicón Diving Centre and next to all the courses and excursions on offer you will also find a huge photo gallery that shows you the unique underwater landscape of Lanzarote with all its life forms. Next to the diving program the centre also offers other activities on the sea as sport fishing or excursions in sailing boats. Visit the centre to inform yourself about all these attractive offers.
